Review of February's Results and This Month's Changes

#### GOOD MONTH FOR THE MARKET - AND FOR DIVIDEND PAYERS

With the S&P up 3.7%, February was a good month for the overall market, and it was good for dividend stocks as well.

While only 8 of our 18 Industry & Specialty portfolios beat or tied the S&P, only two ended the month in the negative column, and then only by 1%.

Our Model Portfolios did even better. High Yield/Speculative, up 9%, Growth & Income, up 6%, and Conservative, up 5%, all beat the market. Monthly Paying Retirement, returning 4%, tied the S&P.

Two of our picks produced outsized returns worth mentioning. NutriSystem (NTRI) in Dividend Speculators soared 41% after reporting blowout December quarter results and forecasting more of the same to come. Then, Banc of California (BANC) in our U.S. Banks portfolio, gained 23% after a short-sellers' attack imploded, forcing the short-sellers to cover their positions.

Here are last month's and year-to-date returns for all of our portfolios, plus the S&P 500.

#### What Happened?

February's strong market action reflected the market's belief that Trump's proposed tax cuts and other ideas are good for business and consequently, good times are ahead.

#### What's Next?

As I'm sure you'll agree, predicting the market or anything else for that matter is next to impossible these days. So, be prepared for anything. Only add cash to the market that you won't need back for at least 12-months.

#### What's New?

Most preferred stocks can be called (redeemed) five years after the issue date. But the new pick that we're adding to Preferreds Stocks this month can't be called for seven years. That's important because it's paying an 8.0% dividend yield. So, with the call date seven years out, you'll have two more years to collect its above-market dividend.

We're adding a new chip maker to High Dividends—High Tech paying 3% that is a player in all of the hot new markets; smart automobiles, factory automation, and Internet of Things.

Finally, we're adding a new fund to CEF Growth Opportunities that seemingly does the impossible. It focuses on high-tech stocks, that as you probably know, don't pay much in the way of dividends. But this closed-end fund manages to pay outsized returns, plus a 9.1% dividend yield. Read the write-up for details.

On the other side of the coin, we're selling one Master Limited Partnership that looks to us like it's running out of steam. In our Model Portfolios, we're making one change to each of our four portfolios. Here are the details on this month's portfolio changes.

#### NEW BUYS, SELLS, ETC.

PREFERRED STOCKS: Buy Chimera Investment (CIM-B), Don't Add to Citigroup J (C-J), Goldman Sachs J (GS-J).

**CEF Growth Opp: Buy** Columbia Seligman Premium Technology Growth (STK).

HIGH TECH- HIGH DIVIDEND: BUY Maxim (MXIM).

MLP Energy Part: Sell Enviva Partners (EVA).

MODEL PORT MONTHLY RETIREMENT: Buy Cohen & Steers Realty (RQI), DELETE JH Financial Opportunities (BTO).

MODEL PORT CONSERVATIVE: BUY C.S. Premium Technology (STK), DELETE Macquarie Infrastructure (MIC).

Model Port Growth & Inc: Buy HP Inc. (HPQ), Delete Cracker Barrel (CBRL).

Model Port High Yield/Spec: Buy Teekay Offshore Series A (TOO-A), Delete Costamare Series D (CMRE-D).

Delete= Sell from Model Port. Only • SELL= Sell from all Ports

#### MODEL PORTFOLIOS

We offer four Model Portfolios, each containing seven securities. Pick one or more portfolios and invest equal dollar amounts in each of the seven securities.

Don't "cherry pick." Every portfolio has its stars and clunkers, but you can't know which is which in advance. Every few months, check the dollar value of your holdings and rebalance if necessary.

When we replace an existing pick, we suggest that you do the same. However, we have **different "buy" criteria** for our Model Ports than for our Industry & Specialty portfolios. If the security being replaced is still "buy" rated in its home portfolio, it's your option whether or not to sell it, assuming that you have available funds. Please see page 7 for current Model Portfolio holdings.

#### Monthly Paying Retirement Portfolio (+3.5% return)

Closed-end fund Reeves Utility Income (UTG), up 11%, and EPR Properties (EPR), up 5% led the pack. First Trust MLP & Energy (FEI), up 1%, and John Hancock Financial Opportunities (BTO), at breakeven, were the laggards.

We're replacing JH Financial Opportunities in this portfolio with Cohen & Steers Realty (RQI) from our CEF (Closed-End Fund) Growth Opportunities portfolio. As its name implies, C&S Realty focuses on Real Estate Investment Trusts (REITs), a category that we expect to prosper if the economy strengthens as many expect. JH Financial Opportunities is still "buy" rated in its home CEF Growth Opportunities portfolio.

#### Conservative Portfolio (+4.9% return)

All of our picks recorded gains. Cisco Systems (CSCO), up 11%, and Communications Sales & Leasing (UNIT), up 10%, did the best. Oppenheimer Ultra Dividend (RDIV) and Cincinnati Financial (CINF), both up 2%, trailed the pack.

During the month, Communications Sales and Leasing changed its corporate name to Uniti Group and its ticker symbol to UNIT. We're replacing Macquarie Infrastructure (MIC) in this portfolio with Columbia Seligman Premium Technology Growth (STK), which is a new pick from our CEF Growth Opportunities portfolio. Macquarie is still "buy" rated in its home MLPs-Ex Energy portfolio.

#### Growth & Income (+5.7% return)

Banc of California (BANC), up 23%, and Qualcomm (QCOM), up 7%, gained the most last month. Cinemark Holdings (CNK), down 2%, was the only loser.

We're replacing Cracker Barrel (CBRL) in this portfolio with HP, Inc. (HPQ), from our High Tech-High Dividends portfolio. Cracker Barrel is still "buy" rated in its home Manufacturing & Services portfolio.

#### High Yield/Speculative Portfolio (+9.4% return)

NutriSystem (NTRI), up 41%, and Cypress Semiconductor (CY), up 13%, did the best. CenturyLink, which we just added to the portfolio last month, down 6%, was the only loser.

We're replacing preferred stock Costamare Series D (CMRE-D) with another preferred, Teekay Offshore Series A (TOO-A). Both are from our Preferred Speculators portfolio where Costamare is still "buy" rated.

#### PREFERRED STOCKS

PORTFOLIO RETURNS: LAST MONTH +2.5%, YEAR TO DATE +5.0%
BEST: BANC Calif. (BANC-E), +7%, CHS Inc. (CHSCL +5%
WORST: National General (NGHCO) -1%, eBay (EBAYL) -0%,

With only one of our picks recording a significant loss, February was another good month. Looking at year-to-date returns, SCE Trust (SCE-J), up 10%, and Qwest 6.50% (CTBB), up 9%, were the leaders. eBay and AmTrust Financial (AFSI-D), both up 1%, were the laggards.

#### New Pick

Chimera Investment 8.00% Series B (CIM-B): Chimera, a mortgage REIT, invests in mortgages secured by single-family homes. Issued 2/22/17, these preferreds recently traded at \$24.92 per share, just slightly below their \$25.00 issue and call prices. The market yield and the yield to their 3/30/24 call date is 8.0%. The preferreds are cumulative meaning that Chimera is on the hook for any missed dividends. The preferreds are not credit rated, meaning only that Chimera did not choose to pay for a rating, not that they are necessarily more risky than credit-rated preferreds.

#### Terminology Refresher

**Market yield:** return based on the dividend and current trading price. For instance, the market yield for a preferred trading at \$10 per share and paying \$1.00 annually would be 10%.

**Yield-to-call:** average annual return assuming that your preferreds were called at their call price (\$25) on their call date (a worst-case scenario).

#### Do Not Adds

Both Citigroup Series J (C-J), and Goldman Sachs Series J (GS-J) preferreds have moved up in price to the point where their yield-to-calls are below the 4.5% that we require to rate non-investment grade preferreds at "buy." We're advising against adding to positions, but we're not necessarily advising selling.

We're still advising against adding to positions in Sallie Mae (SLMAP) because it's trading above its call price and could be called at any time. We're also advising against adding to Qwest 6.875% (CTV) because you'd achieve higher returns by instead adding to positions in the newer issue, Qwest 6.50% (CTBB).

#### **Highest Market Yields**

Besides for our new pick, our highest paying preferreds in terms of market yields are Annaly Capital (NLY-C), Ashford Hospitality (AHT-G), and Invesco Mortgage (IVR-B), all paying 7.7%.

#### PREFERRED SPECULATORS

PORTFOLIO RETURNS: LAST MONTH -1.4%, YEAR TO DATE +6.0%

BEST: GasLog (GLOG-A) +2%, Teekay Offshore (TOO-A) +1%

WORST: Seaspan (SSW-H) -9%, Costamare (CMRE-D) -1%

Seaspan's preferreds dropped along with its common stock after the ship owner reported a \$139 million loss for 2016 vs. a \$199 million profit in 2015, and cut its common stock dividend by 67%. Lower charter rates were the culprit and nobody knows when rates will move up again.

Seaspan's losses came from accounting (impairment, etc.) charges. When you count the cash, Seaspan actually earned \$3.02 per share (operating cash flow) and ended the year with \$368 million in the bank vs. year-ago \$219 million. Seaspan's preferreds are yielding 8.9% to new money (market yield) and offer 25% capital appreciation potential should they trade back up to their \$25.00 call price.

#### ETF MONTHLY INCOME (EXCHANGE-TRADED FUNDS)

PORTFOLIO RETURNS: LAST MONTH +1.5%, YEAR TO DATE +3.0%

BEST: IS Preferred (PFF) +2.1%, IS JPM Emerging (EMB) +1.7% WORST: CEF Muni Income (XMPT) +0.7%, IS Invest Gr. (LQD) +1.3%

Our fixed income ETFs have returned 3.0% in this year's first two months, surprisingly good considering all you hear about on TV is how rising interest rates will sink bond prices.

#### **ETF Growth Opportunities**

PORTFOLIO RETURNS: LAST MONTH +3.3%, YEAR TO DATE +4.7%

BEST: PS Utilities (PUI) +4%, WT Large Cap Div (DLN) +4%

WORST: Oppenheim Ultra (RDIV) +2%, FT Technology (TDIV) +3%

Not bad, but we lagged the S&P 500's 3.7% return in February.

#### **CEF MONTHLY INCOME**

PORTFOLIO RETURNS: LAST MONTH +1.3%, YEAR TO DATE +5.6%

BEST: Pimco Corp. & Inc. (PCN) +3.5%, JH Premium Div. (PDT) +2.3% Worst: F&C Total Return (FLC) -1.4%, Pimco Muni (PML) +0.7% Although F&C Total Return's underlying net asset value (NAV) rose 2.6% last month, its share price dropped 1.4%. Why? Probably a big holder lightened his or her position.

#### **CEF GROWTH OPPORTUNITIES**

PORTFOLIO RETURNS: LAST MONTH -+3.8%, YEAR TO DATE +8.6%

BEST: Reeves Utility (UTG) +11%, C & S Realty (RQI) +3%

WORST: JH Financial Opport. (BTO) -0%, First Trust MLP (FEI) +1%

Reeves Utility Income is up 19% so far this year.

#### New Pick

In my view, tech stocks will outperform over the next few years. But how can we participate when most tech stocks don't pay significant dividends? That's why we're adding Columbia Seligman Premium Technology Growth (STK) to the portfolio.

Instead of collecting dividends, CS Premium Tech employs a strategy that derives income by selling call options on stocks in its portfolio. Of course, it still enjoys capital gains when its stocks go up. Does that work? The fund, currently paying a 9.1% yield, has returned 30% over the past 12-months, and 22% and 15%, on average, annually, over the past three and five year periods.

### **BUSINESS DEVELOPMENT COMPANIES (BDCs)**

PORTFOLIO RETURNS: LAST MONTH +4.9%, YEAR TO DATE +3.2%

BEST: Main Street (MAIN) +5%
WorsT: Hercules Tech (HTGC) +5%

Both of our BDCs reported mixed, but on balance, good, December quarter growth numbers. Both should do well if the economy grows as expected this year.

#### HIGH TECH - HIGH DIVIDENDS

PORTFOLIO RETURNS: LAST MONTH +9.1%, YEAR TO DATE +7.6%
BEST: HP, Inc, (HPQ) +15%, Cypress Semi (CY) +13%
Worst: Microsoft (MSFT) -0%, Qualcomm (QCOM) +7%

Looking at the only earnings news, Cisco Systems (CSCO) reported disappointing January quarter numbers.

Cisco raised its quarterly dividend by 12% to \$0.29 per share. Last year, Cisco hiked its payout by 24%.

#### New Pick

Hard hit by slowing desktop computer sales, the semiconductor industry has been in the dumps in recent years. However, three relatively new markets are heating up: 1) smarter cars, 2) factory automation, and 3) Internet of Things (IoT), which is a term describing applications such as using your iPhone to turn the lights on, controlling your tooth brush, etc.

Our new pick, Maxim Integrated Products (MXIM), is a player in all three of those markets. Any or all of them could turn out to be hot growth sectors, resulting in Maxim beating analyst forecasts, which of course, is what makes share prices move higher. With a 10% dividend hike last August, Maxim is dividend-investor friendly. It's paying 3.0%.

#### **INSURANCE INDUSTRY\***

PORTFOLIO RETURNS: LAST MONTH +4.6%, YEAR TO DATE +2.9%

**B**EST: Arthur J. Gallagher (AJG) +6% **W**ORST: Cincinnati Financial (CINF) +3%

Thanks to losses triggered by Hurricane Matthew and a wildfire in Tennessee, Cincinnati Financial reported below year-ago December quarter earnings. Cincinnati had preannounced those issues in January, so its share price got punished then.

#### MANUFACTURING & SERVICES

PORTFOLIO RETURNS: LAST MONTH +1.4%, YEAR TO DATE +0.9% BEST: Six Flags (SIX) +3%, Kraft Heinz (KHC) +3% Worst: Cinemark (CNK) -2%, Verizon (VZ) +1%

Looking at last month's quarterly reports, Six Flags Entertainment announced good year-over-year growth numbers in most categories. Cinemark Holdings, Cracker Barrel (CBRL) and Kraft Heinz all reported strong earnings growth, but in all three cases, little or no revenue growth.

In the only dividend news, Cinemark raised its quarterly payout by 7% to \$0.29 per share.

Verizon, continuing its acquisition spree, bought privately held Skyward, which supplies software for managing commercial drone fleets. Over the past 12 months or so, Verizon has bought at least eight high-tech startups.

#### Master Limited Partnerships: Energy

PORTFOLIO RETURNS: LAST MONTH +2.8%, YEAR TO DATE +12.8% BEST: Enviva (EVA) +7%, GasLog Partners (GLOP) +6% Worst: Tesoro (TLLP) -1%, Phillips 66 (PSXP) -1%

Enviva reported mixed, but mostly below year-ago December quarter numbers.

#### Sell Enviva

Enviva's growth is slowing, especially its distributions. It most recent payout hike was only 1%, compared to 3% in September and 11% in June. We have a nice profit in Enviva.

#### OIL INDUSTRY

PORTFOLIO RETURNS: LAST MONTH +2.0%, YEAR TO DATE -3.5% Best: Chevron (CVX) +2%

No significant news from Chevron last month.

#### PARTNERS: EXCL-ENERGY

PORTFOLIO RETURNS: LAST MONTH -0.8%, YEAR TO DATE -2.4% BEST: Macquarie (MIC) +3%, America First (ATAX) 0% Worst: Compass Divers. (CODI) -5%

Compass Diversified and Macquarie Infrastructure both reported solid December quarter growth numbers, at least in terms of all-important cash flow, but America First Multifamily reported disappointing results.

Macquarie increased its quarterly dividend by 1.5% to \$1.31 per share.

## **REAL ESTATE INVESTMENT TRUSTS** (REITS)

PORTFOLIO RETURNS: LAST MONTH +6.7%, YEAR TO DATE +7.1% BEST: Uniti (UNIT) +10%, LifeStorage (LSI) +9%

Worst: Retail Oppty. (ROIC) +4%, EPR Properties (EPR) +5%

Communications Sales & Leasing (CSAL) changed its corporate name to Uniti Group, ticker UNIT, as of February 27. According to Uniti, the change reflects the fact that its principal business units are Uniti Towers, Uniti Fiber, and Uniti Leasing.

CyrusOne (CONE), EPR Properties, Hannon Armstrong (HASI), Retail Opportunity Investments, and STORE Capital (STOR) all reported good December quarter growth numbers. On the other hand, LifeStorage, Physicians Realty Trust (DOC), and Uniti Group announced only so-so results.

On the dividend front, CyrusOne raised its quarterly payout by 11% and Retail Opportunity announced a 4% hike.

CyrusOne was added to the S&P Midcap 400 on March 1.

#### www.DividendDetective.com

#### U.S. BANKS

PORTFOLIO RETURNS: LAST MONTH +7.7%, YEAR TO DATE +6.1% BEST: Banc of Calif. (BANC) +23%, Moelis (MC) +8% Worst: First Republic (FRC) -1%, PacWest (PACW) +0%

Moelis reported strong December quarter numbers: EPS up 27% and revenues up 17%.

Moelis has been chosen as an adviser by Saudi Aramco on what is expected to be the world's biggest IPO ever (around \$2 trillion).

Banc of California sold most of its home loan businesses. The sale reduced the bank's operating offices by over 60%, and shrunk its headcount by about 50%. The bank expects to continue originating "jumbo" home loans.

An activist investor that owns 6% of BANC shares nominated two individuals for election to the BANC's Board, and said that BANC should consider all strategic alternatives, including a sale. Earlier, Banc of California's special committee formed to investigate various short-sellers claims found that none were true.

#### **UTILITIES**

PORTFOLIO RETURNS: LAST MONTH +4.8%, YEAR TO DATE +8.4% Best: NextEra (NEE) +7%. Pattern Energy (PEGI) +5% Worst: Dominion (D) +2%, CenterPoint (CNP) +5%

CenterPoint Energy reported mixed, but on balance okay December quarter numbers. Its midstream operations (pipelines) are now its main profit contributor. Pattern Energy also reported mixed, but in this case, mostly disappointing December quarter results.

NextEra Energy raised its quarterly dividend by 13%, and Pattern Energy raised its quarterly dividend by 1%.

#### **DIVIDEND SPECULATORS**

PORTFOLIO RETURNS: LAST MONTH +13.2%, YEAR TO DATE +10.7% BEST: NutriSystem (NTRI) +41%, Sun Communities (SUI) +5% Worst: CenturyLink (CTL) -6%

NutriSystem reported strong December growth in all categories. For instance, earnings rose 123% vs. year-ago on a 21% gain in revenues. Sun Communities also reported all around strong growth, although not in NutriSystem's league. By contrast, CenturyLink reported mostly below yearago numbers.

Sun raised its quarterly payout by 3% to \$0.67 per share.

#### CANADA STOCKS

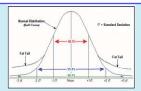

PORTFOLIO RETURNS: LAST MONTH +2.6%, YEAR TO DATE -1.2%

Best: Student Trans. (STB) +5% Worst: Morneau Shepell (MSI.TO) +1%

Both Morneau Shepell and Student Transportations reported modest December quarter growth numbers.

Thanks for subscribing.

#### CORPORATE BONDS

Here are 12 bonds divided into four categories: Conservative, Aggressive, Speculative, and "Walk on the Wild Side." For the first three categories, the bonds were culled from a database of bonds rated investment quality by Standard & Poor's. Bonds in the "Walk on the Wild Side" category are either below investment grade (junk) or not rated.

A deleted listing is not necessarily a "sell" signal. It means that the bond may not be currently available to new buyers, or that we have found a more attractive alternative.
