June 2016 Commentary

Review of May's Results and This Month's Changes

GOOD MONTH FOR DIVIDEND STOCKS

Despite a slow start, the overall market as measured by the S&P 500 ended the month up 1.5%, a nice gain. Eleven of our 17 Industry and Specialty portfolios matched or beat the S&P, and only two recorded small (1%) losses.

Looking at our Sample (model) Portfolios, Conservative, up 3%, did the best, Diversified Monthly and High Yield/Speculative both gained 2%, and Growth & Income returned 1%. If you glance at the table below, you'll see that three of our four Sample Portfolios are soundly beating the S&P so far this year. Here are last month's and year-to-date returns for all of our portfolios and for the S&P 500.

What Happened?

U.S. economic data was generally mixed and ended the month on a sour note—a surprisingly weak employment report. However, crude oil prices moved up around 10% in May, and that seems to be what the market pays most attention to these days.

What's Next?

Last Friday's weak employment report is worrisome in that it signals a slowing economy. On the other hand, it reduces the likelihood of a Fed interest rate hike, at least in June. So, that's good news in terms of likely short-term stock market action, but possibly bad news longer term.

On June 27, Britain votes on whether to exit the European

Common Market. Most analysts see a British exit as bad news for the European economy with a possible spillover to the U.S. I'm guessing that Britain doesn't exit. If I'm right, global markets probably take off on the news, at least for a while.

Taking all that together, June is likely to be a good month, but longer-term is anybody's guess.

What's New?

Again this month, we're making more than the usual number of portfolio changes. Here are the details.

New Buys, Sells, Etc.

PREFERRED STOCKS: New Charles Schwab Series D (SCHW-D), BB&T Series H (BBT-H), Torchmark Debentures (TMK-C), IBERIA BANK 6.60% (IBKCO). Sell Maiden Holdings (MHNB), Vornado Realty (VNO-K). Don't Add to Allstate (ALL-E), Digital Realty (DLR-H), Verizon (VNO-K).

Preferred Speculators: New Costamare Series D (CMRED). **Don't Add** to Seaspan (SSW-E).

CEF GROWTH OPP: New JH Financial Opportunities (BTO). **Sell** Gabelli Multimedia (GGT).

DIVIDEND SPECULATORS: New NutriSystem (NTRI).

UTILITIES: Don't Add to Westar Energy (WR).

SAMPLE (MODEL) PORTFOLIOS

We offer four Sample Portfolios, each containing seven securities. Pick one or more portfolios and invest equal dollar amounts in each of the seven securities.

Don't "cherry pick." Every portfolio has its stars and clunkers, but you can't know which is which in advance. Every few months, check the dollar value of your holdings and rebalance if necessary.

When we replace an existing pick, we suggest that you do the same. However, we have **different "buy" criteria** for our Sample Ports than for our Industry & Specialty portfolios. If the security being replaced is still "buy" rated in its home

portfolio, it's your option whether or not to sell it, assuming that you have available funds. Please see page 7 for current Sample Portfolio holdings.

Diversified Monthly Payers Portfolio (+1.6% return)

EPR Properties (EPR), up 9%, and closed-end fund Pimco Corporate & Income (PCN), up 5%, were the stars. On the other hand, closed-end funds DoubleLine Opportunistic Credit (DBL), down 5%, and Pimco Muni Income II (PML), down 2%, were the losers.

Conservative Portfolio (+2.7% return)

Communications Sales & Leasing (CSAL) and Kraft Heinz (KHC), both up 7%, did the best. Omega Healthcare (OHI), down 5%, and WisdomTree Dividend Ex-Financials (DTN), at breakeven, were the laggards.

Growth & Income (+1.0% return)

Tekla Life Sciences (HQL), up 5%, and First Trust Technology Dividend (TDIV), up 4%, led the pack. Target (TGT), down 12%, and Bank of California (BANC), down 1%, were the losers.

High Yield/Speculative Portfolio (+2.0% return)

Mattel, Orchids Paper Products (TIS), and Main Street Capital (MAIN), all up 4%, were the leaders. STORE Capital (STOR), down 1%, and Market Vectors CEF Muni Income (XMPT), at breakeven, trailed the pack.

We're replacing preferred stock GasLog Series A (GLOP-A) from our Speculative Preferred portfolio with another speculative preferred, Costamare Series D (CMRE-D). However, GasLog is still "buy" rated in the Speculative Preferred portfolio.

We're also replacing Orchids Paper Products in this portfolio with NutriSystem (NTRI), a new Dividend Speculator. Orchids is still "buy" rated in its home Manufacturing & Services portfolio.

Preferred Stocks

Portfolio Returns: Last Month +1.8%, Year-To-Date 5.1%

BEST: SCE Trust (SCE-J) +5%, Invesco Mort. (IVR-B) +4% **WORST:** U.S. Cellular (UZB) -0%, Kimco Realty (KIM-J). 0%

With 23 picks recording gains, three at breakeven, and only one in the losing column, May was another good month for preferreds. Year-to-date, all of our picks are in the positive column. Sallie Mae (SLMAP), up 16%, Invesco Mortgage, up 14%,, and Annaly Capital (NLY-C), up 12%, are the leaders. Looking at returns since added to the portfolio, we have no losers. Sallie Mae, up 114%, Lexington Realty Trust (LXP-C), up 61%, and Maiden Holdings (MHNB), up 38%, were the champs.

This month we're adding four new preferreds, three creditrated investment quality and one unrated, to the portfolio.

Investment Quality

Charles Schwab 5.95% Series D (SCHW-D): Schwab, as you know, is one of the largest stock brokers. Its creditrated BBB preferreds are non-cumulative, meaning that the issuer doesn't have to make up skipped dividends. Dividends are qualified, meaning that they're subject to a maximum 15%/20% tax rate. The dividends are also non-taxable when held by corporations. The market yield (yield based on current trading price) is 5.7%, and the yield-to-call (annualized return if called on the call date) is 5.0%. The call date is 6/1/21.

BB&T 5.625% Series H (BBT-H): BB&T, of Winston-Salem, North Carolina, is the 9th largest U.S. bank. Its non-cumulative preferreds are rated BBB-. Dividends are subject to the maximum 15%/20% tax rate, and are non-taxable when held by corporations. Market yield is 5.5% and the yield to its 6/1/21 call date is 5.0%.

Torchmark 6.125% Debentures (TMK-C): Torchmark operates insurance companies that primarily market life and supplemental health insurance policies. Its credit rated BBB+ preferreds, are, in-effect, cumulative, meaning that the issuer is on the hook for missed dividends. The dividends are taxed at ordinary rates and are taxable to corporations. Market yield is 5.9% and the yield to its 6/15/21 call date is 5.4%.

Not Credit Rated

IBERIABANK 6.60% (IBKCO): IBERIABANK operates bank branches as well as title insurance and mortgage brokerage offices in several Southern states. It's non-cumulative preferreds can't be called until 5/1/26 (that's a good thing). The preferreds were not credit-rated because the issuer opted not to pay to be rated. It doesn't necessarily mean they are not investment quality. Dividends are subject to the maximum 15%/20% tax rate and are non-taxable when held by corporations. Market yield is 6.4%, and the yield-to-call is 6.2%.

Sells

We're selling Maiden Holdings 8.00% Notes, and Vornado Realty 5.70% Series K (VNO-K). Both have moved up in price to the point where they no longer meet our minimum return requirements.

Do Not Adds

We're advising against adding to positions in Allstate Series E (ALL-E), Digital Realty Series B (DLR-B), and Verizon Series K (VNO-K). All three currently do not meet our requirements for "buy" ratings.

Preferred Speculators

Portfolio Returns: Last Month +8.3%, Year-To-Date +21.6% Best: Teekay Offshore (TOO-A) +19%, Seaspan (SSW-E) +5% Worst: GasLog (GLOG-A) +2%

New Pick

Costamare, a container ship owner based in Greece, charters its ships to third party operators. That business has been in the dumps, sinking both Costamare's common and preferred shares. However, Costamare has plenty of cash to pay its preferred dividends, so we're adding Costamare 8.75% Series D Preferreds (CMRE-D) to the portfolio. These are cumulative preferreds meaning that CMRE would still owe the money if it did skip paying tits dividends. The market yield is 10.9% and the preferreds offer 25% appreciation potential should they trade back up to their \$25 call price. The dividends are subject to the maximum 15%/20% income tax rate, but they are taxable to corporations.

Don't Add to Seaspan

Seaspan Series E are trading above their call price, so we're not advising adding to positions. However, it's still paying an 8.1% market yield, so it makes sense to hold onto the preferreds until you find something better to do with your cash.

ETF MONTHLY INCOME (Exchange-Traded Funds)

PORTFOLIO RETURNS: LAST MONTH +0.2%, YEAR TO DATE +5.4%

BEST: iS Preferred (PFF) +1.5%, iS High Yield (HYG) +0.2% **W**ORST: iS Invest Gr. (LQD) -0.5%, iS JPM Emerging (EMB) -0.2%

If not for the Preferred's ETF, the portfolio would have ended the month in negative territory.

ETF GROWTH OPPORTUNITIES

PORTFOLIO RETURNS: LAST MONTH +2.5%, YEAR TO DATE +3.7%

BEST: FT Technology (TDIV) +4%, PS Pharma (PJP) +4%

WORST: WT DIV EX-Fin (DTN) 0%, WT Large Cap Div (DLN) +1%

Year-to-date, PowerShares DWA Utilities Momentum (PUI), up 11%, and WisdomTree Dividend Ex-Financials, up 8%, are the leaders. PS Dynamic Pharmaceutical, down 8%, is our only loser.

CEF MONTHLY INCOME

Portfolio Returns: Last Month +0.3%, Year To Date +7.5%

Best: Pimco Corp. & Inc. (PCN) +4.5%, F&C Total Return (FLC) +1.7%

Worst: DL Opp. Credit (DBL) -4.5%, Pimco Muni (PML) -2.1%

Last month's returns were below our targeted 0.8% to 1.2% monthly returns for this portfolio.

CEF Growth Opportunities

PORTFOLIO RETURNS: LAST MONTH +2.5%, YEAR TO DATE +0.8%

Best: Tekla Life Sciences (HQL) +5%, Cohen & Steers (MIE) +3% Worst: Gabelli Multimedia (GGT) +1%, Reeves Utility (UTG) +2%

New Pick

We expect U.S. banks to outperform over the next 12-months, so we're adding John Hancock Financial Opportunities (BTO) to the portfolio. The fund holds mostly U.S. large banks and smaller regional banks.

Even if banks don't outperform, BTO could make us happy. It has returned 18% over the past 12-months, and 15% and 17%, on average, annually, over the past three and five years. Last September, BTO raised its quarterly distribution by 25% to \$0.37 per share. It's paying a 5.4% yield.

Sell Gabelli Multimedia

Returning only 10% since added to the portfolio in September 2013, Gabelli Multimedia has been a disappointment.

CORPORATE BONDS

Looking at trading prices, our bonds didn't move much again last month. We're replacing two portfolio picks this month. Please see page 6 for details.

24-Hour Customer Service Billing Issues • Log-On Help Toll Free (866) 632-1593

BUSINESS DEVELOPMENT COMPANIES (BDCs)

PORTFOLIO RETURNS: LAST MONTH +3.1%, YEAR TO DATE +10.0%

BEST: Main Street (MAIN) +4%
WorsT: Hercules Tech (HTGC) +3%

Both Main Street Capital and Hercules Capital reported mixed,

but on balance okay March quarter results.

INSURANCE INDUSTRY

PORTFOLIO RETURNS: LAST MONTH +4.8%, YEAR TO DATE +18.5%

BEST: Arthur J. Gallagher (AJG) +5%, Cincinnati Financial (CINF) +5% S&P moved Arthur J. Gallagher from its S&P 400 Index to the S&P 500 after the close of trading on May 27. Gallagher replaced Coca Cola Enterprises, which was acquired.

As usual, Gallagher was busy on the acquisition front, buying a retail insurance broker that caters to healthcare industry clients in the Eastern U.S., and a retail insurance broker in Southern California.

MANUFACTURING & SERVICES

Portfolio Returns: Last Month +1.5%, Year To Date +6.4%

Best: Kraft Heinz (KHC) +7%, Microsoft (MSFT) +7% Worst: Target (TGT) -13%, Six Flags (SIX) -3%

Cinemark Holdings, our last pick to report March quarter results, announced all around strong growth numbers.

Cracker Barrel (CBRL) announced good April quarter earnings and cash flow growth, but not much in the way of revenue growth. Cisco Systems (CSCO) beat analyst forecasts, so the market was happy, but its actual growth numbers were tepid. Target reported mixed, but on balance okay results, but sunk its share price by forecasting little or no July quarter sales growth. Target is still in the early innings of its turnaround, so the news should get better in coming quarters.

Cracker Barrel declared a special \$3.25 per share dividend and raised its regular quarterly by 5% to \$1.15 per share. That news sparked a 10% or so rally in CBRL's share price, but since the news broke on June 1, it isn't reflected in the May return data shown above.

Genuine Parts (GPC) bought a small distributor of supplies for safety, janitorial, medical, food service, and food processing applications. Genuine expects the deal to add about 1% to annual revenues.

MASTER LIMITED PARTNERSHIPS: ENERGY

PORTFOLIO RETURNS: LAST MONTH +8.5%, YEAR TO DATE -12.9%

BEST: GasLog Partners (GLOP) +16%, Tesoro (TLLP) +6%

Worst: Enviva (EVA) +3%

Tesoro Logistics reported 14% March quarter revenue growth, but thanks to a 17% increase in shares outstanding, its per-share earnings and cash flow numbers fell short of year ago. Still its \$1.52 per unit, distributable cash flow easily covered its \$0.81 per share distributions. Enviva Partners also reported March quarter results. It also generated plenty of cash to pay its distributions, but since it was an April 2015 IPO, Enviva's March quarter year vs. year comparisons didn't mean much.

MLPs: Excl-Energy

Portfolio Returns: Last Month -1.2%, Year To Date -6.4%

Best: Macquarie (MIC) +3%, America First (ATAX) +4%

Worst: Blackstone Grp (BX) -5%, America First (ATAX) -2%

None of our picks announced significant news last month.

OIL INDUSTRY

PORTFOLIO RETURNS: LAST MONTH -0.1%, YEAR TO DATE +15.1% Best: Chevron (CVX) -0%

Lots happening every day, but no real market moving news last month.

REAL ESTATE INVESTMENT TRUSTS (REITS)

Portfolio Returns: Last Month +4.0%, Year To Date +12.4%

Best: CyrusOne (CONE) +12%, EPR Properties (EPR) +9%

Worst: Omega Healthcare (OHI) -5%, STORE Capital (STOR) -1%

CyrusOne, Hospitality Properties, Omega Healthcare (OHI), Physicians Realty (DOC), and STORE Capital all reported strong March quarter growth numbers vs. year-ago. Hannon Armstrong (HASI) also announced good year-over-year growth numbers, but only very modest growth from its December '15 quarter.

In other news, Sovran Self Storage (SSS) is paying \$1.3 billion to acquire privately held LifeStorage, which operates 92 self storage properties in nine states. To help pay for the deal, Sovran sold 6.9 million new shares at \$100 per share.

U.S. BANKS

Portfolio Returns: Last Month +2.3%, Year To Date +1.7% Best: PacWest (PACW) +6%, First Republic (FRC) +3%

Worst: Banc of Calif. (BANC) -1%

Banc of California raised \$100 million selling 5.3 million new shares at \$19.05 each. First Republic Bank hopes to raise \$205 million by selling 2.9 million new shares at \$71.20.

UTILITIES

PORTFOLIO RETURNS: LAST MONTH +4.6%, YEAR TO DATE +18.3% BEST: Westar Energy (WR) +9%, CenterPoint (CNP) +6%

Worst: Dominion (D) +1%, NextEra (NEE) +3%

CenterPoint Energy and Dominion Resources reported mixed, but on balance, disappointing March quarter numbers. Pattern Energy (PEGI) also reported mixed overall results, but strong cash available for distribution growth, which is the bottom line for PEGI.

Westar Energy agreed to be **acquired** by Great Plains Energy (GXP). WR shareholders will receive \$51 in cash, and \$9.00 of GXP stock for each Westar share.

Don't Add to Westar Energy

Westar recently traded at \$56.47, leaving around 6% to be gained by holding until the transaction closes (by end of June '17 quarter) or the shares trade up closer to the \$60 takeout price. So, we see no point in selling at this time, but we're not advising adding to positions either.

Dividend Detective Premium DividendDetective.com/subs

DIVIDEND SPECULATORS

PORTFOLIO RETURNS: LAST MONTH +0.9%, YEAR TO DATE -13.6%

BEST: Mattel (MAT) +4%, Sun Communities (SUI) +3%

Worst: Scorpio (STNG) -4%

In a recent report, Moody's said that it expects to see visible results from Mattel's turnaround strategy during the 2016 holiday season.

New Pick

We're adding weight management product maker NutriSystem (NTRI) to the portfolio. NutriSystem was foundering when new management took control in November 2012. The new crew turned the company around by introducing a steady stream of new products focused as much on a healthy lifestyle as on weight loss. That program is going well. March quarter sales and earnings both grew at double-digit rates.

But the big news is that NutriSystem recently acquired the "South Beach Diet" brand and will be introducing a totally new South Beach diet and health program in January 2017. NutriSystem is paying a 2.7% dividend yield.

CANADA STOCKS

PORTFOLIO RETURNS: LAST MONTH -0.9%, YEAR TO DATE +24.6%

Best: Student Trans. (STB) +1%

Worst: Morneau Shepell (MSI.TO) -3%

Morneau Shepell reported below year-ago March quarter earnings, but good revenue and cash flow growth. Student Transportation also announced strong revenue growth, but not much in the way of earnings growth.

Thanks for subscribing.

CORPORATE BONDS

Here are 12 bonds divided into four categories: Conservative, Aggressive, Speculative, and "Walk on the Wild Side." For the first three categories, the bonds were culled from a database of bonds rated investment quality by Standard & Poor's. Bonds in the "Walk on the Wild Side" category are either below investment grade (junk) or not rated.

A deleted listing is not necessarily a "sell" signal. It means that the bond may not be currently available to new buyers, or that we have found a more attractive alternative.
